The Great Mental Models: General Thinking Concepts Farnam Street 2019-12-16 The old saying goes, "To the man with a hammer, everything looks like a nail." But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. The Great Mental Models: General Thinking Concepts is the first book in The Great Mental Models series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet- ignore them. Upgrade your mental toolbox and get the first volume today. AUTHOR BIOGRAPHY Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. We curate, examine and explore the timeless ideas and mental models that history's brightest minds have used to live lives of purpose. Our readers include students, teachers, CEOs, coaches, athletes, artists, leaders, followers, politicians and more. They're not defined by gender, age, income, or politics but rather by a shared passion for avoiding problems, making better decisions, and lifelong learning. AUTHOR HOME Ottawa, Ontario, Canada

Preventing Reading Difficulties in Young Children National Research Council 1998-07-22 While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, Preventing Reading Difficulties in Young Children examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.

Starting at the Finish Line Amy Unell 2012-07-03 The sign on his office door simply says “Track & Field Coach.” His life says infinitely more. Coach Al Buehler has touched and enriched the lives of countless athletes, students, and others, including Olympians John Carlos and Carl Lewis, sports icons Mary Decker Slaney, Shane Battier, and Ellison Goodall Bishop (the first woman to run at Duke)—and thousands more who have never owned a pair of track shoes. Coach Al Buehler believes that finish lines are something to prepare for; and in his world, they should be a place to begin... Buehler is the consummate professor-athlete-coach. Following a stellar college track career at the University of Maryland, he came to Duke University in 1955 and has since coached thousands of track-and-field and cross-country athletes at the biggest moments in sports from the NCAA Championships to World Indoor Track Championships to the Olympic Games. Coach Buehler is the longest-term teaching professor and coach in the history of Duke as well as one of the most successful, with a long roster of All-Americans, six ACC championship teams, seven Penn Relay champions, and multiple Olympians to his credit. At a campus still segregated by race and gender, Buehler was an early and ardent advocate for both desegregation and Title IX. Amongst the many accolades and honors that he has received, he is a recipient of the Jackie Robinson Humanitarian Award. At heart, Coach Buehler is a mentor. And Starting at the Finish Line embodies his advice and memorable “Coachables”—along with commentary and insights by a host of notables, from Coach Mike Krzyzewski and Jackie Joyner-Kersey to Carl Lewis and Joan Benoit Samuelson—that have inspired, motivated, and educated athletes and students alike to play with integrity and heart—both on and off the track.

Stone Fox John Reynolds Gardiner 2010-05-18 John Reynolds Gardiner's classic action-packed adventure story about a thrilling dogsled race has captivated readers for more than thirty years. Based on a Rocky Mountain legend, Stone Fox tells the story of Little Willy, who lives with his grandfather in Wyoming. When Grandfather falls ill, he is no longer able to work the farm, which is in danger of foreclosure. Little Willy is determined to win the National Dogsled Race—the prize money would save the farm and his grandfather. But he isn't the only one who desperately wants to win. Willy and his brave dog Searchlight must face off against experienced racers, including a Native American man named Stone Fox, who has never lost a race. Exciting and heartwarming, this novel has sold millions of copies and was named a New York Times Outstanding Children's Book.

Empowering Readers Mary L. Hoch 2019-12-11 To address Common Core State Standards (CCSS) for reading and language, today's educators strive to help their students develop higher-level understanding with challenging materials. In this book, we share our method for implementing an integrated strategy approach for helping readers understand expository text. This approach can be used to accompany and extend text structure instruction on the five most commonly used expository text structures: compare and contrast, cause and effect, problem and solution, description, and sequence. Within this approach, we designed a method for using key vocabulary in a way that helps readers think about the structure of the text. To aid in the development of higher-level

understanding with challenging materials, this approach integrates other essential reading comprehension components that foster understanding, such as predicting and summarizing. The Structure Sort integrated approach embeds these essential strategies before, during, and after reading to empower students to make connections and build comprehension at all stages of reading.

Twelve Chinese Zodiacs 中国生肖 (Simplified Chinese Reading Comprehension, Level 1, Chinese-English Bilingual) Tingjia Liang 2018-03-07 (This book is with free audio book, and also readable on iPad and tablets.)Once upon a time, the Jade Emperor intended to select twelve animals to match the twelve earthly branches. The twelve animals selected would be the twelve zodiacs. But how would they be selected? To be fair, the Jade Emperor came up with the idea of competition: there was a small island in the sea, the animals were expected to race to the center of the island, and the top twelve animals would be the twelve zodiacs. The rat pushed the cat into the sea , took advantage of the ox and became the first one reaching the finish line and winning the game.
