Assessment and Learning in Content and Language Integrated Learning

(CLIL) Classrooms Mark deBoer 2020-11-17 This volume builds a conceptual basis for assessment promoting learning in Content and Language Integrated Learning (CLIL) classrooms and proposes practical assessment approaches and activities that CLIL teachers can apply in the classroom. CLIL as an educational context is unique, as language

and content learning happen simultaneously. The efficacy of such instruction has been studied extensively, but assessment in CLIL classrooms has drawn much less attention. The present volume aims to fill this gap. Arranged based on different ways that content and language are integrated in CLIL, the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms. The authors discuss how assessment eliciting this integration yields insights into learners' abilities, but more importantly, how these insights are used to promote learning. The contributors to the volume together build the understanding of classroom-based assessment as cyclic, of teaching, learning, and assessment as inter-

related, and of content and language in CLIL classrooms as a dialectical unity. This volume will spark interest in and discussion of classroom-based assessment in CLIL among CLIL educators and researchers, enable reflection of classroom assessment practices, and foster collaboration between CLIL teachers and researchers. The assessment approaches and activities discussed in the volume, in turn, will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms.

**Common European
Framework of Reference
for Languages: Learning,
Teaching, assessment**
Council of Europe
2020-05-05 The CEFR
Companion volume
broadens the scope of
language education. It
reflects academic and
societal developments
since the publication of
the Common European
Framework of Reference
for Languages (CEFR) and
updates the 2001
version. It owes much to
the contributions of
members of the language
teaching profession
across Europe and
beyond. This volume
contains: ► an
explanation of the key
aspects of the CEFR for
teaching and learning; ►
a complete set of

updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ►

enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

1-2-3 Magic for Christian Parents Thomas Phelan 2011-10-01 Based on the bestselling parenting book 1-2-3 Magic and adapted for a Christian lifestyle!

"1-2-3 Magic made parenting fun again." "I highly recommend this book to any parent who is spending more time yelling at or nagging their children than smiling at and laughing with them." "All I have

to say is that the ideas in this book really WORK! It really is like magic!" "It's such a relief to not feel like I'm constantly yelling at someone! If you want to see a fast improvement in your child's behavior, check out 1-2-3 Magic." Complete with relevant Bible verses, explanations, and exercises, this guide builds on the enormously popular 1-2-3 Magic discipline system by addressing the concerns of a Christian parent. Dr. Thomas W. Phelan and pastor Chris Webb teach parents to take charge while refraining from any physical discipline or yelling, leading to better behaved children, happier parents, and a more peaceful home environment. 1-2-3 Magic allows you to get back in charge of your home and enjoy your kids again by helping you set

limits for your children, and by breaking down the complex task of parenting into three straightforward steps: 1. Controlling Obnoxious Behavior: Learn an amazingly simple technique to get the kids to STOP doing what you don't want them to do (whining, arguing, tantrums, sibling rivalry, etc.) 2. Encouraging Good Behavior: Learn several effective methods to get your kids to START doing what you want them to do (picking up, eating, going to bed--and staying there!, chores, etc.) 3. Strengthening Your Relationships: Learn powerful techniques that reinforce the bond between you and your children. You'll find tools to use in virtually every situation, including advice for common

problems such as: • Whining • Sibling rivalry • Reluctance to do chores • Refusing to go to bed or getting up in the middle of the night • Talking back • Stubbornness For years, millions of parents from all over the world have used the award-winning 1-2-3 Magic program to help them raise happier, healthier families and put the fun back into parenting.

Repositioning

Pedagogical Content Knowledge in Teachers' Knowledge for Teaching Science Anne Hume

2019-01-28 This book enhances readers' understanding of science teachers' professional knowledge, and illustrates how the Pedagogical Content Knowledge research agenda can make a difference in teachers' practices and how students learn science. Importantly, it offers an updated international perspective on the

evolving nature of Pedagogical Content Knowledge and how it is shaping research and teacher education agendas for science teaching. The first few chapters background and introduce a new model known as the Refined Consensus Model (RCM) of Pedagogical Content Knowledge (PCK) in science education, and clarify and demonstrate its use in research and teacher education and practice. Subsequent chapters show how this new consensus model of PCK in science education is strongly connected with empirical data of varying nature, contains a tailored language to describe the nature of PCK in science education, and can be used as a framework for illuminating past studies and informing the design of future PCK studies in science education. By presenting

and discussing the RCM of PCK within a variety of science education contexts, the book makes the model significantly more applicable to teachers' work.

CLIL Do Coyle 2010-04-01 CLIL (Content and Language Integrated Learning) has emerged since the millennium as a major trend in education. Written by Do Coyle, Philip Hood and David Marsh and drawing on their experience of CLIL in secondary

schools, primary schools and English language schools across Europe, this book gives a comprehensive overview of CLIL. It summarises the theory which underpins the teaching of a content subject through another language and discusses its practical application, outlining the key directions for the development of research and practice. This book acknowledges the uncertainty many teachers feel about CLIL, because of the requirement for both language and subject knowledge, while providing theoretical and practical routes towards successful practice for all. **Essential Teacher Knowledge** Jeremy Harmer 2012 Essential Teacher Knowledge - a unique foundation-level methodology book with over 2 hours of video

Examining Listening

Ardeshir Geranpayeh

2013-03-27 This volume examines the nature of second language listening proficiency and how it can be assessed. The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain. This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence. It

operationalises a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components, examining and then analysing Cambridge ESOL listening tasks from the following perspectives: Test Taker; Cognitive Validity; Context Validity; Scoring Validity; Criterion-related Validity; and Consequential Validity.

Language Across the Curriculum & CLIL in English as an Additional Language (EAL) Contexts

Angel M.Y. Lin

2016-09-15 This book will be of interest to a broad readership, regardless of whether they have a background in sociolinguistics, functional linguistics or genre theories. It presents an accessible "meta-language" (i.e. a language for talking about language) that is

Downloaded from carrier-int.pickrr.com on August 8, 2022 by guest

workable and usable for teachers and researchers from both language and content backgrounds, thus facilitating collaboration across content and language subject panels. Chapters 1 to 3 lay the theoretical foundation of this common meta-language by critically reviewing, systematically presenting and integrating key theoretical resources for teachers and researchers in this field. In turn, Chapters 4 to 7 focus on issues in pedagogy and assessment, and on school-based approaches to LAC and CLIL, drawing on both research studies and the experiences of front-line teachers and school administrators. Chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how

LAC and CLIL are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals, where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society, and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge. In closing, Chapter 9 reviews the state of the art in the field and proposes directions for future inquiry.
